

Ahoy! Corax the  
Cormorant says:  
"Try a **CARRICK BEND**"

You will need two pieces of rope

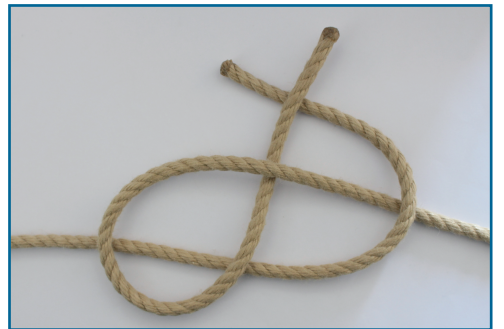

1

Make a loop with the first rope  
and put the second rope under  
the loop

2

Pull the end of the second rope  
under the end of the first rope

3

Pull the end of the second rope  
over the top of the loop of the  
first rope

4

Pull the end of the second rope  
under itself

5

Pull the end of the second rope over the first rope

The knot should be symmetrical

6

Pull tight to finish the knot

Well Done!

The **CARRICK BEND** is used to join two ropes together.

Underfall Yard  
Cumberland Road  
Bristol BS1 6XG
